Name	Copy Power Standard in this Column	Anticipated Methods of Assessing this Standard
Trade Math (2nd Hour)	6.SP.A.2 Understand that a set of data collected to answer a statistical question has a distribution which can be described by its center, spread, and overall shape.	Assessments will be done predominantly with the Khan Academy Program. Students will complete online exercises, quizzes, and tests. Students may also be asked to submit written responses to lessons. Google Meet will be used as a tool to assist students with their online learning.
Trade Math (2nd Hour)	7.SP.A.2 Use data from a random sample to draw inferences about a population with an unknown characteristic of interest. Generate multiple samples (or simulated samples) of the same size to gauge the variation in estimates or predictions.	
Trade Math (2nd Hour)	HSF-LE.A.3 Observe using graphs and tables that a quantity increasing exponentially eventually exceeds a quantity increasing linearly, quadratically, or (more generally) as a polynomial function.
