2413 - HEALTH EDUCATION

The Board of Education, in compliance with State law, has adopted a comprehensive program of health education that will prepare students to maintain good health and enable them to adapt to changing health problems in our society.

The Board recognizes that this program, like others the District offers, may contain content and/or activities that some parents find objectionable. ~~The District shall notify the parents, in advance of the instruction and about the content of the instruction and give the parents an opportunity to review the materials to be used.~~ A student may not be required to take instruction in physiology and hygiene, sanitation, the effects of controlled substances pursuant to State law and alcohol upon the human system, symptoms of disease, and the proper care of the body if the student's parent files with the teacher a written objection.

If a student does not take instruction in these subjects as a result of parental objection, the student may not be required to be examined in the subjects and may not be penalized in any way for not taking such instruction, and the Board authorizes the District Administrator to determine if the student shall complete an alternative assignment that is similar to the subjects in the length of time necessary to complete.

If the subjects receive credit toward graduation the Board authorizes the District Administrator to determine if an alternative assignment is to be completed by the student that is similar to the subjects in the length of time necessary to complete.

Instruction in physiology and hygiene shall include instruction on sexually transmitted diseases and shall be offered in every high school.

The District Administrator shall notify parents of planned instruction in the health education curriculum regarding human growth and development topics as identified and in accordance with Policy 2414 - Human Growth and Development.

Students in grades seven (7) through twelve (12) will be provided instruction in cardiopulmonary resuscitation and cardiocerebral resuscitation including instruction on the psychomotor skills necessary to perform both skills as part of any health education course offered.

Students in grades seven (7) through twelve (12) will be provided instruction about automated external defibrillators as identified in Policy 8452 - Automated External Defibrillators.

~~The District Administrator shall prepare administrative guidelines that require:~~

†The health education program includes appropriate learning experiences related to such topics as use, abuse, and effects of drugs, alcohol, and tobacco; mental, physical, and dental health; disease prevention and control; accident prevention; and related health and safety topics. The health education program includes periodic evaluation of student understanding

and continual analysis of the effectiveness of the program and the accuracy, completeness, and relevancy of the information and instructional procedures.

In implementing the program, the District Administrator may use whatever District and outside resources, including Department of Education guidelines and consultants, ~~s/he deems~~ **deemed** appropriate.

6320 - **PURCHASING**

Procurement of all supplies, materials, equipment, and services paid for from District funds shall be made in accordance with all applicable Federal and State statutes, Board policies, and administrative guidelines. Standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award, and administration of contracts as established by ~~Policy 1130, Policy 3230, and Policy 4230~~ – **Ethics and** Conflict of Interest.

All procurement transactions shall be conducted in a manner that encourages full and open competition and in accordance with good administrative practice and sound business judgment.

It is the policy of the Board of Education that the District Administrator seek at least two (2) price quotations on purchases of more than \$10,000 for a single item, except in cases of emergency or when the materials purchased are of such a nature that price negotiations would not result in a savings to the District.

When the purchase of, and contract for, single items of supplies, materials, or equipment is reasonably anticipated to reach the amount of \$10,000 or more, the Business Manager shall obtain competitive bids. Purchase of and contract for projects will be subject to a competitive bid process as and when required by law.

Bids shall be sealed or may be submitted electronically and shall be opened by the Business Manager in the presence of at least one (1) Board member. A bidder may be required to submit a sworn statement regarding:

- A. financial ability to complete the contract;
- B. nature and quality of equipment to be used in performing the contract;
- C. experience and past performance in performing the contract;
- D. such other information the District deems relevant to the protection and welfare of the public in the performance of the contract.

Such statements shall be delivered to the District no later than five (5) days prior to the bid opening and shall be kept confidential by the District, except upon the written order of the person submitting the statement or on behalf of whom the statement is submitted, for the necessary use by the District in qualifying the person/bidder or the District. The statements shall be reviewed and the bidder notified if is qualified to submit a bid.

The Board reserves the right to reject any and all bids.

Contracts can be awarded by the Business Manager without Board approval for any single item or group of identical items costing less than \$10,000. All other contracts require Board approval prior to purchase.

The Board shall be informed of the terms and conditions of all competitive bids and shall award contracts as a consequence of such bids.

Purchasing Items with Federal Grant Funds

When purchasing items with Federal funds a District shall:

- A. give consideration to whether separating or combining purchases will provide for a more cost-effective approach to avoid acquisition of unnecessary or duplicative items;
- B. where appropriate, conduct an analysis of lease versus purchase options and the most economical and beneficial method shall be pursued;
- C. conduct an evaluation of the availability and feasibility of entering into inter-governmental agreements to procure the goods or services required on a shared basis;
- D. in the case of a time and material contract, make a determination that no other arrangement is suitable and that the contract places a ceiling price that protects the District.

General Provisions

The District Administrator is authorized to purchase all items within budget allocations.

The Board should be advised, for prior approval, of all purchases of equipment, materials, and services when the purchase was not contemplated during the budgeting process or if the purchase varies materially from the function or scope as budgeted.

The District Administrator is authorized to make emergency purchases, without prior approval, of those goods and/or services needed to keep the schools in operation. Such purchases shall be brought to the Board's attention at the next regular meeting.

In order to promote efficiency and economy in the operation of the District, the Board requires that the Business Manager periodically estimate requirements for standard items or classes of items and make quantity purchases on a bid basis to procure the lowest cost consistent with good quality.

Whenever storage facilities or other conditions make it impractical to receive total delivery at any one time, the total quantity to be shipped shall be made a part of the bid specifications.

Before the employee places a purchase order, s/he shall have the Business Manager check whether: (a) the proposed purchase is subject to bid, (b) whether sufficient funds exist in the budget and (c) the goods or services might be available elsewhere in the District. All purchase orders shall be numbered consecutively.

In the interests of economy, fairness, and efficiency in its business dealings, the Board requires that:

- A. items commonly used in the various schools or units thereof, be standardized whenever consistency with educational goals can be maintained;
- B. opportunity be provided to as many responsible suppliers as possible to do business with the School District;
- C. a prompt and courteous reception, insofar as conditions permit, be given to all who call on legitimate business matters;
- D. where the requisitioner has recommended a supplier, the Business Manager may make suggestion alternatives to the requisitioner if, in his/her judgment, better service, delivery, economy, or utility can be achieved by using a different supplier;
- E. upon the placement of a purchase order, the Business Manager shall commit the expenditure against a specific line item to guard against the creation of liabilities in excess of appropriations.

The District Administrator shall determine the maximum expenditure allowed without a properly signed purchase order.

Employees may be held personally responsible for anything purchased without a properly signed purchase order or authorization.

The Board may acquire office equipment by lease, installment payments, lease-purchase agreements, or by lease with an option to purchase, provided the contract sets forth the specific terms, including price, of such a purchase.

Debarred Contractors Excluded

The District shall not award any contract, agreement or subcontract for goods or services to any party that has been suspended or debarred from receiving contracts or subcontracts by the Federal Acquisition Regulations (FAR).

For any contract or subcontract with a value in excess of \$25,000, the District shall include a provision in the contract or as a condition of any subcontract award that the contracting party attest that it is not at the time of contracting a suspended or debarred party under the Federal Acquisition Regulations and that, if at any time during performance of the services or delivery of goods in the applicable contract, said contractor or subcontractor should be identified as a suspended or debarred entity by the General Services Administration, the contractor or subcontractor shall immediately notify the District of that fact, which shall serve as sufficient grounds to terminate the contract as the District determines is appropriate.

7440 - **SAFETY AND SECURITY**

Promoting the safety of students, staff and others in the school buildings, as well as providing for the protection of the significant financial investment in the District's buildings is a critical function of the Board of Education. Proper safety measures are to be implemented to protect those who use the buildings and to protect the buildings and equipment owned by the Board from theft and vandalism in order to maintain the optimum conditions for carrying out the educational program.

The District Administrator shall develop and supervise the District's School Safety Plan, in compliance with State and Federal laws, as described in Policy 8420.

Every effort shall be made to apprehend those who knowingly cause serious physical harm to students, staff, visitors, and Board property and to require the prosecution of those who bring harm to persons and/or property. The Board will seek to repair the damage or seek the payment of a fee to cover such repairs.

The Board authorizes the District Administrator to conduct searches of non-student visitors or vehicles on school property when there is a reasonable suspicion of violation of the law or school rules, and the search is reasonable in scope related to the objectives of the search and not excessively intrusive.

Appropriate authorities may be contacted in the case of serious offenses.

The District Administrator is authorized to ~~install~~ utilize metal detectors (e.g., walk through detectors and hand-held wands), video surveillance/electronic monitoring equipment, and other security devices on school property in order to protect the health, welfare, and safety of students, staff, visitors and Board property, ~~and other security devices that would assist in the detection of guns and dangerous weapons~~ in school buildings or on District property.

The District Administrator shall report to the Board no later than the next regular Board meeting, any significant incident involving vandalism, theft, personal safety or other security risks and the measures being taken to address the situation.

Public Access to School Facilities

The Board expects that during regular school hours only students and school staff need to be present in the school building. The Board also acknowledges that there will be times during the instructional day that members of the public, including parents, invited guests, or other individuals will for appropriate and legitimate reasons require entry into a school facility. In such cases, the following guidelines shall be followed:

- A. All exterior doors to every school building shall be locked during the instructional day, preventing entry into the building and all visitors to the school building during those times will be directed to a single entrance into the building. This entrance shall be the entrance closest to the school office. Visitors must identify themselves and the purpose of their visit to the school through the intercom system.
- B. All persons other than students and building staff shall check in with the school office of the building and shall complete a visitor log. Each visitor shall be given a visitor tag that shall be worn at all times while in the building. School office staff must contact the classroom teacher to verify that the visitor is expected.
- C. All visitors are expected to sign out prior to departing the building.
- D. Outside of instructional times, no person other than a staff member may be in any school building except for attendance at a public function (such as a sporting event) or based on an approved facility use request pursuant to Policy 7510.

Any visitor to the school may be refused entry or asked to leave the building at any time if the building administrator determines that the visitor's presence is disruptive or is likely to become disruptive to the educational environment, or for other safety or security reasons. If a visitor refuses to leave upon request by the building administrator or event supervisor, the building administrator or event supervisor shall contact ~~the school resource officer or~~ local law enforcement as appropriate. No staff member should attempt to physically remove a visitor unless the visitor poses an imminent safety threat.

Failure to follow the requirements above when entering or remaining in school facilities may be subjected to a fine not exceeding \$1,000. In circumstances tending to provoke a disturbance of the peace, persons may be fined not more than \$10,000 or imprisoned not more than ninety (90) days.

Any school staff member that witnesses a visitor in the school building who is not wearing a visitor tag as required shall report the visitor's presence to the school office. In the event the school office does not have record of such visitor properly checking in, the office staff shall immediately contact an Administrator or, if an Administrator is not available, if applicable, appropriate law enforcement.

Parents as Visitors

The Board encourages parental involvement in the education of students in the District. For this reason, it is important to facilitate the involvement of parents in school activities and the educational process while at the same time preserving the integrity of the educational environment for all students. As a balance, the Board adopts the following requirements for parents visiting the school during the instructional day:

- A. Parents shall make arrangements with their child's teacher or with the building administrator in advance of visiting their child at school unless that is not possible.
- B. Parents, like any other visitor, must enter the building through only the only approved visitor entrance and shall check-in at the main office in the same fashion as a visitor.

Parents visiting District schools shall comply with Policy 9150 - School Visitors, and other relevant policies and administrative guidelines.

Parents who do not follow these guidelines or whose presence is disruptive to the educational environment may be asked to leave the building by the Building Administrator. Any decision to permanently restrict access of a parent may only be made by the District Administrator due to the parent's repeated failure to follow rules causing a disruption to the educational environment or for overt threats of harm or actual physical contact with any staff or student.

Court Imposed Restrictions

In any case in which an individual is the subject of a court order restricting the individual's presence at a school building, including any restrictions on the individual's physical proximity to an individual either a student or staff member, the Building Administrator shall inform staff of the situation and if any staff member sees the individual on school premises, that staff member shall immediately contact law enforcement and the school office.

Sex Offenders on School Property

Any person who is a registered sex offender under Wisconsin Law is required to notify the District Administrator of the specific date, time and place of his/her visit to any school facility and must notify the District Administrator of their status as a registered sex offender.

Parents of students enrolled in the District must notify the District Administrator of their status as a registered sex offender and that they have children enrolled in the District. Notification must occur at the beginning of each school year or at the time the individual is required to register or whenever the child is first enrolled, whichever occurs first.

Notification requirements do not apply if the person will be on school grounds to vote in an election or to attend a non-school sponsored event occurring on the school grounds.

7540 - **TECHNOLOGY**

The Board of Education is committed to the effective use of technology to both enhance the quality of student learning and the efficiency of District operations.

Students' use of District technology resources (see definition in Bylaw 0100 - Definitions) is a privilege not a right. Students and their parents must sign and comply with Policy 7540.03-- Student Technology Acceptable Use and Safety.

The District Administrator shall develop and implement a written District Technology Procedure (DTP). One (1) of the primary purposes of the DTP is to evaluate new and emerging technologies and how they will play a role in student achievement and success and/or efficient and effective District operations.

The DTP shall set forth procedures for the proper acquisition of technology. The DTP shall also provide guidance to staff and students concerning making safe, appropriate and ethical use of District technology resources, as well as inform both staff and students about disciplinary actions that will be taken if Board technology and/or networks are abused in any way or used in an illegal or unethical manner. (See Policy 7540.03 and AG 7540.03 - Student Technology Acceptable Use and Safety, and Policy 7540.04 and AG 7540.04 - Staff Technology Acceptable Use and Safety)

The District Administrator, in conjunction with the Technology Director, shall review the DTP and report any changes, amendments, or revisions to the Board.

This policy, along with the Student and Staff Technology Acceptable Use and Safety policies, and the Student Code of Conduct, further govern students' and staff members' use of their personal communication devices (see Policy 5136 - Personal Communication Devices and Policy 7530.02 - Staff and School Officials Use of Personal Communication Devices). Users have no right or expectation of privacy when using District technology resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the District's computer network and/or Internet connection).

Further, safeguards shall be established so that the Board's investment in both hardware and software achieves the benefits of technology and inhibits negative side effects. Accordingly, students shall be educated about appropriate online behavior including, but not limited to, using social media, which is defined in Bylaw 0100 - Definitions, to interact with others online; interacting with other individuals in chat rooms or on blogs; and, recognizing what constitutes cyberbullying, understanding cyberbullying is a violation of Board policy, and learning appropriate responses if they experience cyberbullying. Social media does not include sending or receiving e-mail through the use of District-issued e-mail accounts.

Equipment Security and Retention Procedures

The District invests significant resources in making current technology available for staff and students. Individual usage of devices that are not in a fixed location must be in accordance with these guidelines. The term "device" for purposes of this guideline includes District-owned computers, tablets, smart devices, and any other hardware or software systems or equipment owned or leased by the District.

- **Use of District-owned Devices:**

No device may be used to access any material that is prohibited by the District's technology usage policies, Policy 7540.03 - Student Technology Acceptable Use and Safety and Policy 7540.04 - Staff Technology Acceptable Use and Safety. Devices may not be used to access content that is unlawful or potentially harmful to the device and may never be used to access any "darkweb" content. Specifically, use of devices to access material that poses a risk of introducing viruses, malware, or other destructive content is strictly prohibited. Users are responsible for replacing devices that are inoperable due to the introduction of such malicious content while in the user's possession.

- **Requests for Personal Use:**

Personal use of devices by students, staff, and others shall be in accordance with Policy 7530 - Lending District-Owned Equipment.

Additionally, a device shall not be used to access any material that is prohibited by the District's technology usage policies. (See Policy 7540.03 - Student Technology Acceptable Use and Safety and Policy 7540.04 - Staff Technology Acceptable Use and Safety)

If allowed for personal use, devices may not be used to access content that is unlawful or potentially harmful to the device and may never be used to access any "darkweb" content. Specifically, use of devices to access material that poses a risk of introducing viruses, malware, or other destructive content is strictly prohibited. Users are responsible for replacing devices that are inoperable due to the introduction of such malicious content while in the user's possession.

No business use shall be made of any borrowed devices. Software shall not be used in violation of any licensing agreement, nor shall it be copied.

No software or other applications may be downloaded onto any device except by the District's (X) Information Technology Director and only as authorized by the District Administrator.

Users will be responsible for arranging safe transportation and housing for use off school premises.

- **Staff Services:**

Media staff will instruct the user on the correct operation of devices. Media staff may assist other staff members in obtaining materials for instructional use by recording and/or copying within copyright guidelines.

- **Equipment Inventory and Repair:**

All devices will be inventoried pursuant to Policy 7450 - Property Inventory.

If a piece of equipment requires repair, it will be sent to the Information Technology Director.

- **Report of Loss:**

Access to Social Media

Staff use of District-approved social media platforms/sites shall be consistent with Policy 7544 - Use of Social Media.

Students must comply with Policy 7540.03 - Student Technology Acceptable Use and Safety and Policy 5136 - Personal Communication Devices when using District technology resources to access and/or use District-approved social media platforms/sites.

7544 - **USE OF SOCIAL MEDIA**

Technology is a powerful tool to enhance education, communication, and learning.

The Board of Education authorizes the use of social media to promote community involvement and facilitate effective communication with students, parents/guardians, staff, and the general public. Social media is defined in Bylaw 0100.

The District Administrator is charged with designating the District-approved social media platforms/sites, which shall be listed on the District's website.

In designating District-approved social media platforms/sites, the District Administrator shall specify which platforms/sites are appropriate for use at the District-level, the building or department level, for extra-curricular activities, and at the individual level by employees for professional purposes consistent with the Board's authorization for the official use of social media by individual buildings, departments, activities, or staff members.

It is critical that students be taught how to use social media platforms safely and responsibly. Social media (as defined in Bylaw 0100) are a powerful and pervasive technology that affords students and employees the opportunity to communicate for school and work purposes, and to collaborate in the delivery of a comprehensive education. Federal law mandates that the District provide for the education of students regarding appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and regarding cyberbullying awareness and response. See Board Policy 7540.03 – Student Technology Acceptable Use and Safety.

The District recognizes that employees may use social media for personal, as well as professional reasons. The District neither encourages nor discourages employees' use of social media for personal purposes. The District regulates employees' use of social media for purposes related to their District assignment to the same extent as it regulates any other form of employee communication in that regard.

Staff are not permitted to solicit or accept "Friend" requests from enrolled School District of Manawa students on any personal social media account. Staff that are guardians of School District of Manawa students are exempt from this requirement as it relates to soliciting or accepting "Friend" requests from their own children.

The District uses approved social media platforms/sites as interactive forms of communication and welcomes public comments. The District-approved social media platforms/sites are considered limited public forums. As such, the District will monitor posted comments to verify they are on-topic, consistent with the posted rules for use of the forum, and in compliance with the platform/site's applicable terms of service. The Board's review of posted comments will be conducted in a viewpoint neutral manner, and consistent with State and Federal law. Employees' personal posts on the public platforms/sites are limited/restricted to matters of general public interest that are not related to the employee's specific employment and wholly unrelated to the employee's job responsibilities (i.e., matters where it is clear the individual is

posting not in an official capacity, but simply as a member of the public). Employees in administrative positions are ordinarily not permitted to post personal comments on matters of general public interest because to do so could be misconstrued as Board-sponsored speech.

Each District-approved social media account/site must contain a statement that specifies its purpose(s) and limits those who access the social media account/site to use of the account/site only for that/those purpose(s), and in accordance with any specified procedures, and applicable terms of service. Users are personally responsible for the content of their posts.

The District Administrator shall maintain the District's social media presence with respect to general announcements, notices, or other such communications that are disseminated to the public at large or specific audiences within the community. To the extent individual staff members wish to post information or announcements to a District social media platform, the staff member or volunteer may request that the District Administrator approve and post such information. (This provision does not apply to social media communications that are related to instructional and school-sponsored activities.)

Social Media for Instructional and School-Sponsored Activities

Staff (including District-approved volunteers) may, with prior approval/authorization from the Principal, District Administrator, and Technology Director, use social media platforms/sites for communications about classroom instruction or school-sponsored activities, as well as to support classroom instruction. When a staff member uses a District-approved social media platform/site for an educational purpose, it will be considered an educational activity and will not be considered a limited public forum. Students' use of District-approved social media platforms/sites must be consistent with the Student Code of Conduct, Policy 5722/AG 5722 – School-Sponsored Student Publications and Productions, Policy 7540.03/AG 7540.03 – Student Technology Acceptable Use and Safety, the instructor's directions/procedures, and the platform/site's applicable terms of service. Students are prohibited from posting or releasing personally identifiable information about students, employees, and volunteers through District-approved social media without appropriate consent.

Staff members must provide parents of students involved in a school-sponsored activity the ability to opt-out of having their child use social media platforms/sites for communication purposes associated with that activity, and arrange for an alternative method of communicating with the participating student concerning the school-sponsored activity.

Expected Standards of Conduct on District-Approved Social Media

Employees who access District-approved social media platforms are expected to conduct themselves in a respectful, courteous, and professional manner. Students, parents, and members of the general public who access District-approved social media platforms are similarly expected to conduct themselves in a respectful, courteous, and civil manner.

District-approved social media sites shall not contain content that is obscene; is vulgar and lewd such that it undermines the school's basic educational mission; is libelous or defamatory; constitutes hate speech; promotes illegal drug use; is aimed at inciting an individual to engage in unlawful acts or to cause a substantial disruption or material interference with District operations; or interferes with the rights of others. The District may exercise editorial control over the style and content of student speech on District-approved social media if reasonably related to legitimate pedagogical concerns. Staff or students who post prohibited content shall be subject to appropriate disciplinary action.

The District is committed to protecting the privacy rights of students, parents/guardians, staff, volunteers, Board members, and other individuals on District-approved social media sites. District employees are prohibited from posting or releasing confidential information about students, employees, volunteers, or District operations through social media, without appropriate consent (i.e., express written consent from the parent of a student, the affected employee or volunteer, or the District Administrator concerning District operations). **Employees and District-approved volunteers are prohibited from using District-approved social media platforms/sites to communicate privately with individual students.**

Retention of Public/Student Records

District communications that occur through the use of District-approved social media platforms/sites – including staff members' use of social media with school-sponsored activities, and comments, replies, and messages received from the general public – may constitute public records or student records, and all such communications will be maintained (i.e., electronically archived) in accordance with the Board's adopted record retention schedule and all applicable State statutes. (See AG 8310A –Public Records)

Staff members cannot rely on social networking platforms (e.g., Facebook, Twitter, etc.) to sufficiently fulfill potential records retention requirements because these platforms, in general, do not guarantee retention and are unlikely to assist in the production of third-party comments and communications that have been edited, deleted, or are otherwise no longer

available. Consequently, District employees who use such social media accounts for professional communications must operate them in accordance with the general archiving practices and technology instituted by the District so records remain within the District’s control and are appropriately retained.

If a staff member uses District-approved social media platforms/sites in the classroom for educational purposes (i.e., classroom instruction), the staff member must consult with the Principal concerning whether such use may result in the creation of public and/or education records that must be maintained (i.e., electronically archived) for a specific period of time.

Employees' Use of District Technology Resources to Access Social Media for Personal Use

Employees are permitted to use District technology resources (as defined in Bylaw 0100) to access social media for personal use, provided the employee’s use during work hours does not interfere with his/her job performance.

They are reminded that the District may monitor their use of District technology resources.

Employees' Use of Personal Communication Devices at Work to Access Social Media for Personal Use

Employees are permitted to use personal communication devices to access social media for personal use during work hours, provided it does not interfere with the employee's job performance.

Employees and District-approved volunteers are prohibited from posting or engaging in communication that violates State or Federal law, Board policies, or administrative guidelines. If an employee/volunteer's communication interferes with his/her ability to effectively perform his/her job or violates State or Federal law, Board policies, or administrative guidelines, the District may impose disciplinary action and/or refer the matter to appropriate law enforcement authorities.

This policy and its corresponding administrative guideline will be reviewed and updated as necessary.

8310 - PUBLIC RECORDS

The Board of Education recognizes its responsibility to maintain the public records of this District and to make such records available for inspection and reproduction. The Board designates the District Administrator as the District Records Custodian (DRC), to be the legal custodian of records for the District. The DRC shall safely keep and preserve the public records of the District and shall have the authority to render decisions and carry out duties related to those public records, including providing the notice required under 19.34(1) Wis. Stats., identifying the positions of the District that constitute a local public office pursuant to 19.32(1dm), and 19.42 (7w), Wis. Stats., and other required information. The DRC may deny access to records only in accordance with the law. The DRC is authorized and encouraged to consult with the District's legal counsel to determine whether to deny access to a records request in whole or in part.

Under the Wisconsin Public Records Law, a "record" is defined as any material on which written, drawn, printed, spoken, visual, or electromagnetic information or electronically generated or stored data is recorded or preserved, regardless of physical form or characteristics, that has been created or is being kept by the authority. It includes handwritten, typed, or printed pages, maps, charts, photographs, films, recordings, tapes, optical discs, and any other medium on which electronically generated or stored data is recorded or preserved. A "record" does not include drafts, notes, preliminary computations, and like materials prepared for the originator's personal use or prepared by the originator in the name of a person for whom the originator is working; materials that are purely the personal property of the custodian and have no relation to his/her the office held; materials to which access is limited by copyright, patent, or bequest; and published materials in the possession of an authority other than a public library that are available for sale, or that are available for inspection at a public library. The personal use exception applies to notes created by the originator solely for the purpose of refreshing his/her the originator's recollection and as a matter of convenience (not part of his/her assigned job duties), but does not apply to notes that are distributed to others for the purpose of communicating information or notes that are created or retained for the purpose of memorializing agency activity.

In addition, records may be exempted from disclosure as a matter of statute or common law or, under the balancing test, the public interest in disclosure may be outweighed by the public interest in non-disclosure.

Any person may make an oral or written request for any public records of the District. The person may inspect or receive copies of the public record requested. The District will respond as soon as practicable and without delay. The District will either provide the requested documents, subject to any redactions, or inform the requester of the District's decision to deny the request.

The District will comply with the Safe at Home/Address Confidentiality Program administered by the Wisconsin Department of Justice. (See Policy 5111 - Eligibility of Resident/Nonresident Students, Policy 8320 - Personnel Records and Policy 8330 - Student Records.)

The District may charge the requester of a copy of a record of \$0.25 per page, that represents the actual, necessary, and direct cost of reproduction of the record. In addition, the District may impose a fee upon a requester for the actual time spent by District employees in locating a record, if the cost is \$50.00 or more. In calculating location costs, the District will use the applicable employee's hourly rate for salary and benefits.

The District may also charge the requester for any equipment required to fill the request (such as videotapes, computer disks, etc.) The District may impose a fee upon a requester for the actual, necessary, and direct cost of mailing or shipping of any copies which are mailed or shipped to the requester.

The District may require prepayment of fees if the total amount exceeds \$5.00. If payment is required, the District will calculate the actual cost and charge the requester. If advance payment is required, the District will either invoice the requester for the difference between the estimate and actual cost or refund any overpayment.

No public record may be removed from the office in which it is maintained, except by a Board officer or employee in the course of the performance of his/her/their duties.

Nothing in this policy shall be construed as preventing a Board member from inspecting in the performance of his/her official duties any record of this District, except student records and certain portions of personnel records.

The District Administrator shall establish administrative guidelines to ensure proper compliance with the intent of this policy and the public records law.

The District Board has adopted the Wisconsin Department of Public Instruction's guidelines on School District record retention.

8330 - **STUDENT RECORDS**

In order to provide appropriate educational services and programming, the Board of Education must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Except for data identified by policy as "directory data," student "personally identifiable information" includes, but is not limited to: the student's name; the name of the student's parent or other family members; the address of the student or student's family; a personal identifier, such as the student's social security number, student number, or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the District reasonably believes knows the identity of the student to whom the education record relates.

Reference in this policy to "directory data," includes reference to "directory information," in the context of the Family Educational Rights and Privacy Act (FERPA).

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and/or necessary and relevant to the function of the School District or specifically permitted by this Board will be compiled by Board employees.

In all cases, permitted, narrative information in student records shall be objectively-based on the personal observation or knowledge of the originator.

Student records shall be available only to students and their parents, eligible students, designated school officials who have a legitimate educational interest in the information, or to other individuals or organizations as permitted by law.

Address Confidentiality Program

Students who are verified participants in the Safe at Home/Address Confidentiality Program administered by the Wisconsin Department of Justice shall be permitted to use their substitute assigned address for all District purposes. The Board shall refrain from including the student's actual/confidential residential address in any student records or files (including electronic records and files) or disclosing the student's actual/confidential residential address when releasing student records. The Board shall only list the address designated by the Wisconsin Department of Justice to serve as the student's address in any student records or files, including electronic records and files. Further, the Board shall use the student's substitute assigned address for any and all communications and correspondence between the Board and the parent(s) of

the student (or adult student). The student's actual/confidential residential address shall be maintained in a separate confidential file that is not accessible to the public or any employees without a legitimate purpose. The intentional disclosure of a student's actual/confidential residential address is prohibited.

The Board may enter into a memorandum of understanding with a county department under State statutes (s. 46.215, 46.22 or 46.23) or a tribal organization, as defined under Federal law, that permits disclosure of information contained in student records as provided under State law in cases in which the student's parent, if the student is a minor, or the student, if the student is an adult, does not grant permission for such disclosure.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" or "adult student" refers to a student who is eighteen (18) years of age or older, or a student of any age who is enrolled in a postsecondary institution.

Both parents shall have equal access to student records unless stipulated otherwise by court order or law. In the case of adult students, parents may be allowed access to the records without the student's consent, provided the student is considered a dependent under section 152 of the Internal Revenue Code, and provided that the student has not made a written request to the District that the adult student's parents not be permitted access to personally identifiable information from the adult student's records.

A school official is a person employed by the Board as an administrator, supervisor, teacher/instructor (including substitutes), or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company with whom the Board has contracted to perform a special task (such as an attorney, auditor, or medical consultant); a contractor, consultant, volunteer, or other party to whom the Board has outsourced a service otherwise performed by Board employees (e.g. a therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing tasks (including volunteers).

"Legitimate educational interest" is defined as a "direct or delegated responsibility for helping the student achieve one (1) or more of the educational goals of the District" or if the record is necessary in order for the school official to perform an administrative, supervisory, or instructional task or to perform a service or benefit for the student or the student's family. The Board directs that reasonable and appropriate methods (including but not limited to physical and/or technological access controls) are utilized to control access to student records and to make certain that school officials obtain access to only those education records in which they have legitimate educational interest.

The Board authorizes the administration to:

- A. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a private or public school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that:
 1. a reasonable attempt is made to notify the student's parent or eligible student of the transfer (unless the disclosure is initiated by the parent or eligible student; or the Board's annual notification - Form 8330 F9 - includes a notice that the Board will forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer);
 2. the parent or eligible student, upon request, receives a copy of the record;
 3. the parent or eligible student, upon request, has an opportunity for a hearing to challenge the content of the record; and
 4. no later than the next working day, the District shall transfer to another school, including a private or tribal school, or school district, all student records relating to a specific student if the transferring school district or private school has received written notice from the student (if an adult) or their parent or guardian if the student is a minor that the student intends to enroll in the other school or school district or written notice from the other school or school district that the student has enrolled or from a court that the student has been placed in a juvenile correctional facility, as defined in s. 938.02(10p), or a secured residential care center for children and youth, as defined in s. 938.02(15g);

In this subsection, "school" and "school district" include any juvenile correctional facility, secured residential care center for children and youth, adult correctional institution, mental health institute, or center for the developmentally disabled that provides an educational program for its residents instead of, or in addition to, that which is provided by public, private, and tribal schools.

- B. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a juvenile detention facility in which the student has been placed, or a juvenile court that has taken jurisdiction of the student;
- C. disclose student records that are pertinent to addressing a student's educational needs to a caseworker or other representative of the department of children and families, a county department under s. 46.215, 46.22, or 46.23, or a tribal organization, as defined in 25 USC 450b(L), that is legally responsible for the care and protection of the student, if the caseworker or other representative is authorized by that department, county department, or tribal organization to access the student's case plan;
- D. provide "personally-identifiable" information to appropriate parties, including parents of an eligible student, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals, if there is an articulable and significant threat to the health or safety of a student or other individuals, considering the totality of the circumstances;
- E. report a crime committed by a child to appropriate authorities, and, with respect to reporting a crime committed by a student with a disability, to transmit copies of the student's special education and disciplinary records to the authorities for their consideration;
- F. release de-identified records and information in accordance with Federal regulations;
- G. disclose personally identifiable information from education records, without consent, to organizations conducting studies "for, or on behalf of" the District for purposes of developing, validating or administering predictive tests, administering student aid programs, or improving instruction;

Information disclosed under this exception must be protected so that students and parents cannot be personally identified by anyone other than a representative of the organization conducting the study, and must be destroyed when no longer needed for the study. In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the purpose of the study.

- H. disclose personally identifiable information from education records without consent, to authorized representatives of the Federal government, as well as State and local educational authorities. The disclosed records must be used to audit or evaluate a Federal or State-supported education program, or to enforce or comply with Federal requirements related to those education programs. A written agreement between the parties is required under this exception.

The District will verify that the authorized representative complies with FERPA regulations.

- I. request each person or party requesting access to a student's record to abide by Federal regulations and State laws concerning the disclosure of information.

The Board will comply with a legitimate request for access to a student's records within a reasonable period of time but not more than forty-five (45) days after receiving the request or within such shorter period as may be applicable to students with disabilities. Upon the request of the viewer, a record shall be reproduced, unless said record is copyrighted, or otherwise restricted, and the viewer may be charged a fee equivalent to the cost of handling and reproduction. Based upon reasonable requests, viewers of education records will receive explanation and interpretation of the records.

The Board shall maintain a record of each request for access and each disclosure of personally identifiable information. Such disclosure records will indicate the student, person viewing the record, their legitimate interest in the information, information disclosed, date of disclosure, and date parental/eligible student consent was obtained (if required).

Only "directory information" regarding a student shall be released to any person or party, other than the student or their parent, without the written consent of the parent, or, if the student is an eligible student, without the written consent of the student, except as provided by applicable law.

DIRECTORY DATA

Each year, the District Administrator shall provide a public notice to students and their parents of the District's intent to make available, upon request, certain information known as "directory data." The Board designates as student "directory data":

- A. a student's name;
- B. photograph;

- C. participation in officially-recognized activities and sports;
- D. height and/or weight, if a member of an athletic team;
- E. date of graduation;
- F. degrees and awards received.

() Directory data may also include a student ID number, user ID, or other unique personal identifier used by the student when accessing or communicating in a District's electronic systems, if, standing alone, it cannot be used to access student education records (i.e. a pin number, password, or other factor is also needed).

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory data" upon written notification to the Board within fourteen (14) days after receipt of the District Administrator's annual public notice or enrollment of the student into the District if such enrollment occurs after the annual public notice.

In accordance with Federal and State law, the Board shall release the names, addresses, District assigned e-mail addresses (if available), and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. A secondary school student or parent of the student may request in writing that the student's name, address, District assigned e-mail addresses (if available), and telephone listing not be released without prior consent of the parent(s)/eligible student. The recruiting officer is to sign a form indicating that "any information received by the recruiting officer shall be used solely for the purpose of informing students about military service and shall not be released to any person other than individuals within the recruiting services of the Armed Forces." The District Administrator is authorized to charge mailing fees for providing this information to a recruiting officer.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of "directory data," either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order. If the student is under the guardianship of an institution, the District Administrator shall appoint a person who has no conflicting interest to provide such written consent.

The Board may disclose "directory data," on former students without student or parental consent unless the parent or eligible student previously submitted a request that such information not be disclosed without their prior written consent.

The Board shall not collect or use personal information obtained from students or their parents for the purpose of marketing or for selling that information.

INSPECTION OF INFORMATION COLLECTION INSTRUMENT

The parent of a student or an eligible student has the right to inspect upon request any instrument used in the collection of personal information before the instrument is administered or distributed to a student. Personal information for this section is defined as individually identifiable information including a student or parent's first and last name, a home or other physical address (including street name and the name of the city or town), a telephone number, or a Social Security identification number. In order to review the instrument, the parent or eligible student must submit a written request to the building principal at least fourteen (14) business days before the scheduled date of the activity. The instrument will be provided to the parent or eligible student within fourteen (14) business days of the principal receiving the request.

The District Administrator shall directly notify the parent(s) of a student and eligible students, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when such activities are scheduled or expected to be scheduled.

This section does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- A. college or other postsecondary education recruitment, or military recruitment
- B. book clubs, magazines, and programs providing access to low-cost literary products
- C. curriculum and instructional materials used by elementary and secondary schools

- D. tests and assessments used by elementary and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments
- E. the sale by students of products or services to raise funds for school-related or education-related activities
- F. student recognition programs

The District Administrator is directed to prepare administrative guidelines so that students and parents are adequately informed each year regarding their rights to:

- A. inspect and review the student's education records;
- B. request amendments if the parent believes the record is inaccurate, misleading, or violates the student's privacy rights;
- C. consent to disclosures of personally identifiable information contained in the student's education records, except to those disclosures allowed by the law;
- D. challenge Board noncompliance with a parent's request to amend the records through a hearing;
- E. file a complaint with the United States Department of Education;
- F. obtain a copy of the Board's policy and administrative guidelines on student records.

The District Administrator shall also develop procedural guidelines for:

- A. the proper storage and retention of records including a list of the type and location of records;
- B. informing Board employees of the Federal and State laws concerning student records.

The Board authorizes the use of computer data storage for the recording, filing, maintaining, and preserving of records.

No liability shall attach to any member, officer, or employee of this Board as a consequence of permitting access or furnishing student records in accordance with this policy and regulations.

Any entity receiving personally identifiable information pursuant to a study, audit, evaluation or enforcement/compliance activity must comply with all FERPA regulations. Furthermore, such an entity must enter into a written contract with the Board delineating its responsibilities in safeguarding the disclosed information. Specifically, the entity must demonstrate the existence of a sound data security plan or data stewardship program, and must also provide assurances that the personally identifiable information will not be redisclosed without prior authorization from the Board. In addition, the entity conducting the study, audit, evaluation or enforcement/compliance activity is required to destroy the disclosed information once it is no longer needed or when the timeframe for the activity has ended, as specified in its written agreement with the Board.

9130 - PUBLIC REQUESTS, SUGGESTIONS, OR COMPLAINTS

Any individual(s), having a legitimate interest in the staff, programs, and operations of this District shall have the right to present a request, suggestion, or complaint to the District and the Board of Education. At the same time, the Board reserves the right to protect District staff and students from harassment, disclosure of confidential information, and other violations of the staff's or student's rights. It is the intent of this policy to provide a process for considering and addressing public requests, suggestions, or complaints in an efficient, reasonable, and equitable manner. Requests, suggestions, or complaints made by District staff members are covered by ~~Policy 1422~~, Policy 3122, and ~~Policy 4122~~ - Nondiscrimination and Equal Employment Opportunity. This policy is not to be used to appeal or to otherwise seek review of a personnel decision that was or could have been reviewed through the grievance policy, Policy 3340 or ~~Policy 4340~~ - Grievance Procedure.

It is the desire of the Board to address any such matters through direct, informal discussions. It is only when attempts at informal resolution fail that more formal procedures shall be used.

Generally, requests, suggestions, or complaints reaching the Board or Board members shall be referred to the District Administrator for consideration. Only those items that are appropriate for consideration under this policy will be considered. The District Administrator may close out any such request presented to him/her that is not appropriate for consideration consistent with this policy. The Board reserves the right to reverse the District Administrator's decision to dismiss any item raised and to fully investigate or review the matter.

Guidelines for Consideration of Matters Brought Forward Under this Policy

A. First Level

Generally, if the matter raised involves a staff member, the individual(s) should discuss the matter with the staff member, if appropriate. The staff member shall take appropriate action within their authority and District administrative guidelines to deal with the matter. Matters related to other aspects of the District operations, programming, or other decisions shall be brought generally to the Administrator closest to the issue (e.g. if the matter relates to a decision, procedure, or the like in one of the schools, the matter should be raised first with the ~~building~~ Principal or a designated person in the school).

Discussion with the staff member may not be appropriate in some situations including, for example, where the matter involves suspected child abuse, substance abuse, or any other serious allegation that may require investigation or inquiry by school officials prior to approaching the staff member.

As appropriate, the staff member shall report the matter and whatever action may have been taken to their

immediate supervisor

B. Second Level

If the matter has not been satisfactorily addressed at the First Level or it would be inappropriate to discuss the matter with the staff member, the individual(s) may discuss the matter with the staff member's supervisor, if applicable. Discussions with the supervisor shall occur promptly following any discussion with the staff member. If the matter involves allegations of harassment, discrimination, bullying, or other conduct implicating other policies and investigative procedures, the supervisor shall proceed to follow the applicable procedures which may include informing a District Compliance Officer for further review.

Matters not resolved at the Second Level may be brought to the Third Level.

C. Third Level

If the matter has not been satisfactorily addressed at the Second level, and the matter does not involve the District Administrator, the individual(s) may submit a written request for a conference to the District Administrator. This request should include:

1. the specific nature of the request, suggestion, or complaint and a brief statement of the facts giving rise to it;
2. the respect in which it is alleged that the individual(s) (or child of a Complainant) has been affected adversely, if at all, or an explanation of other adverse results or impact of the matter;
3. the action which the individual(s) wishes taken and the reasons why it is felt that such action be taken.

The request must be submitted promptly after discussion with the staff member's supervisor. The District Administrator shall respond in writing to the individual(s) and shall advise the Board of any resolution of the matter.

D. Fourth Level

If the matter has not been satisfactorily addressed at the Third Level, or at the First Level in the case of a matter involving the District Administrator, the individual(s) may submit a written request to the Board to address the matter. Any such request must be submitted within ten (10) business days of the latest attempt to resolve the matter. The written submission shall include all correspondences pertaining to the matter between the individual and any School District officials or employees.

The Board, after reviewing all material relating to the matter, will provide a written response or may, at its discretion, grant an opportunity to address the Board **or** a committee of the Board **prior to making a final decision on the matter.**

The Board's decision, or the decision of the committee of the Board to which the matter was referred, will be final on the matter. The Board may choose to consolidate complaints or other communications for consideration if more than one (1) individual raises similar concerns before it, but reserves the right to refuse to consider any subsequent complaint on the same matter unless previously unknown material facts are raised.

If the individual(s) contacts an individual Board member to discuss the matter, the Board member shall refer the individual(s) to this policy or the District Administrator for further assistance.

Guidelines for Matters Regarding Classroom Instructional Materials

The District Administrator shall inform students and parents each year regarding their right to inspect instructional materials used as part of the educational curriculum and the procedure for completing such an inspection. ~~See Policy 5780 Student/Parent Rights, Policy 2414 Human Growth and Development, and AG 9130A.~~

Parents of children attending school in the District and District residents may request formal reconsideration of the inclusion of specific instructional materials.

Concerns about specific textbooks or other classroom materials should be raised first with the classroom teacher and then the Principal if necessary, in an effort to resolve the matter informally. (X) Concerns about specific library materials should be raised first with the library media specialist, then with the Principal, if necessary, in an effort to resolve the matter informally. If a satisfactory resolution is not reached, requests for consideration of removal of any instructional materials, (X) including library materials, shall be submitted in writing to the (X) District Administrator. () Director of Instructional Services () ~~_____ [END OF OPTION].~~

If the request, suggestion, or complaint relates to classroom instructional materials, the following procedure shall be followed:

- A. The request, suggestion, or complaint is to be addressed to the ~~Curriculum Director~~/Principal, in writing, and shall include:
1. author;
 2. title;
 3. publisher;
 4. the complainant's familiarity with the material objected to;
 5. ~~sections objected to by page and item;~~
 6. ~~reasons for objection.~~ specific concerns upon which the request to reconsider is based. This should include a specific description of the offending material (e.g. contains content that is harmful to minors or prohibited under State law, violates the District's policy on nondiscrimination, is not age-appropriate or developmentally appropriate for the grade level for which the material is used, or some other specified reason). This should include specific references to the text of the material by page number and excerpted text if known.
 - 7.
- B. Upon receipt of the information, the ~~Principal Curriculum Director~~ may, after advising the District Administrator of the complaint, and upon the District Administrator's approval, appoint a review committee, which shall comply with the open meetings law, consisting of:
1. one (1) or more professional staff members;
 2. one (1) or more laypersons knowledgeable in the area.
- C. If the request, suggestion, or complaint relates to the human growth and development curriculum or instructional materials, it shall be referred to the advisory committee responsible for developing the human growth and development curriculum and advising the Board on the design, review, and implementation of the curriculum. (See Policy 2414 - Human Growth and Development).
- D. The ~~e~~Committee, in evaluating the questioned material, shall be guided by the following criteria:
1. the appropriateness of the material for the age and maturity level of the students with whom it is being used
 2. the accuracy of the material
 3. the objectivity of the material
 4. the use being made of the material
- E. ~~The material in question may not be temporarily withdrawn from use pending final resolution of the matter.~~ The material being reviewed based on a request under this policy shall remain available during the review process unless the District Administrator determines that the subject material poses a threat of harm to students considering the grade level involved and provided the determination is not made solely because the material presents ideas that may be unpopular or offensive to some. Any temporarily removed materials will be promptly returned if the final determination is to retain the material. Any action to remove material following a request reviewed under this policy will be explained in the review process records.
- F. The ~~e~~Committee's recommendation shall be reported to the District Administrator in writing within ten (10) business days following the first meeting of the ~~e~~Committee. The District Administrator will advise the individual(s), in writing, of the ~~e~~Committee's recommendation and the District Administrator's decision. The District Administrator

shall also advise the Board of the Committee's recommendation and their District Administrator's decision.

G. The individual(s) may submit an appeal of the District Administrator's decision in writing to the Board President within ten (10) business days of receiving the decision. The written appeal and all written material relating to it shall be referred to the Board for consideration.

H. The Board shall review the matter and advise the individual(s), in writing, of its decision as soon as practicable. The Board shall determine on a case-by-case basis whether its review will include appearances by the petitioner and administration, be conducted based on written submissions, or only on the record produced by the Committee and/or District Administrator.

I. The decision of the Board is final.

Decisions on reconsidered materials will stand for 2 years before new requests for reconsideration of those items will be entertained.

No challenged material may be permanently removed from the curriculum or from a collection of resource materials except by action of the Board, and no challenged material may be removed solely because it presents ideas that may be unpopular or offensive to some. Any Board action to remove material will be accompanied by the Board's statement of its reasons for the removal.

Nonprescription drug products include cough drops that contain active ingredients. These cough drops must be handled in the same manner as aspirin, Advil and Tylenol. If a cough drop contains only sugar, water, and some menthol, the procedures for handling nonprescription drug products are not required.

Prescribed Medications

In those circumstances where a student must take prescribed medication during the school day, the following guidelines are to be observed:

- A. Parents should determine with their practitioner's counsel whether the medication schedule can be adjusted to avoid administering medication during school hours.
- B. The Medication Request and Authorization Form must be filed with the Principal's Office before the student will be allowed to begin receiving any medication during school hours. This written and signed request form is to be submitted on an annual basis, or more often if changes in dosage occur, and will include:

An exception to this would be prescriptions for emergency medications.**

Nonprescription Drug Products

In those circumstances where a student must take a Nonprescription Drug Product during the school day, the following guidelines are to be observed:

- A. The Nonprescription Drug Product Request and Authorization Form must be filed with the school nurse before the student will be allowed to begin taking any medication during school hours.

- E. A medication error includes any failure to administer medication as prescribed for a particular student, including failure to administer the medication within appropriate time frames, in the correct dosage, in accordance with accepted practice, and to the correct student. In the event of a medication error, the school nurse shall notify the parent(s) immediately. If there is a question of potential harm to the student, the nurse shall also notify the student's practitioner.

The school nurse shall document medication errors on the Medications Log. The school nurse shall review reports of medication errors and provide consultation to ensure appropriate medication administration in the future.

G. Student with Severe Asthmatic Symptoms

Use of Metered Dose or Dry Powder Inhalers

Asthmatic students may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use a metered dose inhaler or dry powder inhaler when the following three (3) conditions are met.

Asthmatic students who are not required to carry an inhaler shall follow the guidelines which apply to all other prescription medications and their administration.

H. Students with Severe Allergic Reactions

Use of Epi-pen

Students who may suffer from severe allergic reactions may, while in school, at a school-sponsored activity, or under the supervision of a school authority, possess and use an epi-pen when three (3) conditions are met.

1. The student is required to carry the epi-pen for use to prevent the onset of an allergic reaction, and
2. the completed Parent Consent form for a minor student has been submitted to the Principal, and
3. the practitioner's order for medication administration has been submitted to the Principal authorizing the student to possess and use the epi-pen.

Students who may suffer from severe allergic reactions but are not required to carry an epi-pen shall follow the guidelines which apply to all other prescription medications and their administration.

School personnel are not required to administer a nonprescription drug product or prescription drug by means other than ingestion. However, personnel designated to administer medications may indicate a willingness to provide medications, in an emergency or special situation, by means other than ingestion. This is done only under the direction and delegation of the school nurse. The school nurse shall provide instruction and written protocols, as well as documentation that both were provided.

- I. Dispensing of nonauthorized, nonprescription drug products by District employees to students served by the District is prohibited. Where investigation confirms such conduct, prompt corrective action shall be taken, up to and including dismissal.

5540 - **RELATIONSHIP WITH GOVERNMENTAL AGENCIES**

On occasion, principals will need assistance from law enforcement but should avoid unnecessary and inappropriate law enforcement involvement. Principals are expected to be proactive in calling law enforcement when necessary, and not to leave the decision to the discretion of other staff members, except by delegation in their temporary absence. The situations listed below are examples of situations in which it is appropriate to call law enforcement. The District Administrator should be advised of any such situation as soon as feasible.

- A. refusal of a person to leave school property after being requested to do so by the appropriate school authority
- B. willful destruction of school property--particularly if the District is likely to seek restitution
- C. theft--particularly if items are of value and insurance claims will be filed
- D. obvious crime
- E. arson
- F. assaults or serious fighting--if not controlled or if serious injury results
- G. forgery--if assistance is needed in determining whether it is forgery
- H. possession of a dangerous weapon
- I. possession of alcohol or drugs
- J. sale or distribution of controlled substances
- K. blackmail, threatening, or extortion of students or staff members
- L. bona fide threat against a person's life or threats of terrorist acts, bomb scares, etc.

- O. mass walkout from or sit-in on school property--if not controlled or if property damage or personal injury result

- P. setting off firecrackers, pulling fire alarms and similar mischief (discretionary, but advised if reoccurring or the situation is getting out of hand) behaviors;
- Q. a student leaving school property without permission, a missing person situation, or a self-inflicted injury by a student

Interview Procedures

School officials stand in loco parentis (in place of the parent) in respect to the child. This will require the Administrator to strive to maintain a standard of care and concern similar to that of a parent.

- A. All attempts to notify the parent(s) should be documented according to District procedures.
- B. Law enforcement and other governmental authorities should investigate alleged law violations off of school property if at all possible. The investigation can take place immediately on school property, at the request of the principal, if the alleged law violation took place on school property or at school-related event.
- C. When law enforcement or other governmental authorities arrive at the school and wish to interview a student or investigate an alleged law violation, they will contact the principal indicating the nature of their investigation and their desire to question a student or students. Access will be granted consistent with Policy 5540 - The Schools and Governmental Agencies or Policy 5540.01 - Investigations Involving Suspected Child Abuse.
- D. If the principal concurs that the questioning is appropriate, s/he will send for the student, move him/her to an unoccupied room and, if appropriate and a parent is not present, remain in the room during the questioning. If the situation involves suspected child abuse or an emergency requiring prompt action, notification of parents will be determined by the investigator (see also the investigation procedure in AG 8462 - Student Abuse Mandatory Reporting of Child Abuse of Neglect and Threats of Violence).
- E. Should a student be taken into custody or removed from the school premises by law enforcement, the principal shall attempt to notify the student's parents as soon as practicable.
