

Long Range Planning – Leadership Action Team

(Notes from Feb. 10th meeting.)

Members present: Joe Kaczarowski, Helene Pohl, Lori Wilson

The leadership action team worked on expanding the stake holder list with suggestions of people who have not yet been contacted to be a part of the team. Names mentioned were; Shaun Bucholz (Carbon Freckle), Mark Harger (Kolbe & Kolbe), Rob Rosenau (Fire chief), Jake Timm (prospective board member and parent), Ruth Lord (Seniors), Matt & Jennie Beyer (bowling alley), Judy & Timm Trull (B&B), Tim & Greg Schuelke (golf course), Jennifer Schuelke (Sturms), Remingtons (grocery store), Scott Bickley (Little Wolf Auto).

Plans were discussed as to how best to reach out to these people and others who might come to the attention of the team. The following ideas were discussed; handwritten letters, updated information sheets on what is currently happening with long range planning, table with people available to speak with interested persons at the High School parent/teacher conferences, face to face contacts and phone calls.

The following is a statement that was developed to open discussions with possible new stake holders; The Leadership Action Team is looking for a diverse group to guide the school district of Manawa.

Our charge is to find people to assist and advise the leadership of the district on a consistent basis, approximately every 10 weeks during the school year (4 meetings a year). Your name has been mentioned because you have an interest in our schools and the expertise you have would provide valuable support for our students and district leadership. We also feel that you represent a unique and significant segment of our district population.

We invite you to attend a long-range planning meeting to get an idea of the direction that the LRP group is working toward.

During our next LRP meeting on 2/24/2015 we will be looking at revamping the vision and values statement.
