

Construction Weekly Update

Week of July 15th, 2019

School District of Manawa

Crushed Vacant Building Material Stockpile

Crushed Material Placed – Bus turn-around

Crushed Material Placed – Bus turn-around

Crushed Material Placed – Front Drive/Parking

Update

The concrete building material, from the vacant building that was demolished, was crushed and stock piled on site. The crushed material was transported from the vacant building site, and placed as base course for the new driveway, parking lot, and sidewalks at the elementary school. Recycling this material on site helped drive costs down for the district.

About Hoffman

Hoffman Planning, Design & Construction, Inc. is an integrated Total Project Management firm based in Appleton, Wisconsin. We partner with our clients to create innovative designs and build high quality, functional, attractive, energy efficient facilities at costs at or below projects delivered using traditional design and construction methods. Currently in our fifth generation of leadership, Hoffman continues to deliver the same expert service and superior value our clients have come to appreciate.
