5. Brief the district administrator as appropriate.

5.8 Lead Staff Member Response (after hours)

1. Coordinate with public safety officials and/or Crisis Response Team members when deciding which site to use. Unlike a daytime emergency, another school or athletic stadium may be appropriate.
2. Notify the **principal and district administrator** and request that the Crisis Response Team be activated and sent to the selected site. Request that Crisis Response Team members have someone dispatched to the selected site with master keys. Provide a brief description of the incident and specify the staging area so buses can be dispatched to the appropriate location.
3. Request that law enforcement officials dispatch uniformed personnel to the staging area.
4. Make the announcement by public address system, runners, e-mail or by the most practical means available to inform visitors, staff and students. It may be best to wait until the Crisis Response Team and buses have had time to travel to the affected site and the family reunification site before making the announcement and moving to the staging area.
5. In certain situations, it may not be practical or safe to order a general evacuation (such as during a hostage situation or if an armed intruder may still be in the area). In such instances, coordinate with public safety officials for law enforcement personnel to conduct the evacuation room by room.
6. Designate a Crisis Response Team member or other staff member to serve as your representative at the family reunification center. Instruct them to take student information from one of the Emergency Evacuation Kits with them.
7. Notify the appropriate crisis team member to serve as your representative at the staging area.

Section 6 – Lockout – Secure the Perimeter

Definition

A preventive lockout is a means to rapidly enhance the level of security in the facility. By locking all exterior doors and main interior doors, staff can make it more difficult for an intruder in the building or a dangerous person in the vicinity of the facility to gain access to staff and students. This type of lockout does, however, allow staff and students to continue with productive activities in a limited fashion.[EH12]

Alert Signal

Announcement over the public address system, “All staff – **Lockout – Secure the Perimeter**” Please remain in your current lockout area until notified.[EH13]

6.1 Lead Administrator Response

1. Make an announcement to implement the lockout.
2. If appropriate, notify district office and public safety officials of the situation requiring a lockout.
3. **If it is safe for you to do so**, verify that all exterior doors have been secured.
4. **If it is safe for you to do so**, verify that all main interior doors have been secured.
5. Notify the transportation coordinator so that they can stop any inbound buses and/or make preparations to support you in the event you need to implement an **evacuation**.
6. Brief staff as quickly as it is safe to do so. You may do so in several ways depending on your situation. Staff may be notified in person, via intercom, by phone, or by e-mail. You may need to remain in this lockout condition for several hours. If so, you may wish to modify the lockout conditions as appropriate.
7. Once the situation is resolved, implement the **Resume Activities** procedures. The lead administrator may wish to inform staff members of the reason the lockout was issued. This can be done by having administrators go from room to room, using an announcement over the public address system or via e-mail as appropriate to the situation. Staff should be instructed on how they should explain the situation to students. In some cases, the administrator may find it appropriate to send a brief letter home to inform parents of the actions that were taken to protect their children (see appendix of master protocol for sample letters).

6.2 Teacher & Staff Response

1. If you are located in an area with exterior/interior lockable door(s), gather all students in the vicinity into the room and lock the door(s).
2. If you are not in a location with a lockable door, move students to an area where they can be separated from other parts of the facility by a locked door.
3. **Take attendance** and report any concerns, missing students, suspicious activities, etc. to the lead administrator or his or her designee by telephone or intercom.
4. Continue with normal activities, within your “locked out” area, as much as the situation allows.
5. If students or staff have a need to move about in the building, obtain permission first from the lead administrator or his or her designee.
6. Be prepared to rapidly implement an **Evacuation or Lockdown**. Lockdown if directed to do so.

6.3 Kitchen Staff Response

1. Continue with normal activities as much as the situation allows. [EH14]
2. Be prepared to rapidly implement an **Evacuation** or **Lockdown**. Lockdown if directed to do so.

6.4 Custodial Response

1. Make sure all exterior entrance points to the building are locked immediately.
2. Instruct all students and visitors you encounter to move to a location with a lockable door. Provide directions as needed.
3. Once you have secured all exterior doors, report to the lead administrator or his or her designee and assist as needed.
4. Continue with normal activities as much as the situation allows. Periodically check exterior doors to ensure that they remain locked.
5. If students or staff have a need to move about in the building, obtain permission first from the lead administrator or his or her designee.
6. Be prepared to rapidly implement an **Evacuate** or **Lockdown** if directed to do so.

6.5 Bus Driver Response

- A. If you are unloading students in the morning and have other stops, continue your route, avoiding the immediate area of the affected school(s). If your next stop is a school located in close proximity to the affected school(s), seek guidance from the transportation coordinator. If you are picking up students in the afternoon, drive to a location that is at least one thousand feet from any affected school(s) and park in a safe area. Seek guidance from the transportation coordinator to see if you should wait to make the pickup at the affected school(s) once normal activities have resumed or continue your route.
- B. If you are advised of a lockdown by a student, staff member or public safety official and have not been notified by the transportation coordinator, depart from the area and immediately advise the transportation coordinator of the information you have received. If students on your bus would normally disembark, have them remain on the bus until you confirm it is safe to drop them off at the school.

6.6 Transportation Coordinator Response

1. If notified that a lockout is in affect at a school, notify all bus drivers that would normally be dropping off or picking up students at the school and direct them as to what to do next.
2. For **Lockdowns** instruct drivers to restrict cell phone transmissions to those that are critical if you think it is appropriate based on the information you have.
3. If it appears that a lockdown may remain in place for an extended time, consult with district lead administrator or his or her designee to determine if drivers who are designated to pick up at the school should continue their routes and/or if students who are still on the bus should be taken to a secure location until the threat subsides at the affected school(s).
4. Keep drivers updated on the situation as appropriate.
5. Brief the district administrator as appropriate for the situation.

6.7 Lead Staff Member Response (after hours)

1. Make sure the designated entrance points to the building near your location are locked immediately.
2. If the function is in a contained area such as a cafeteria, gymnasium, or library, it may be best to have all exterior doors and all doors to the room where the function is being held secured and to continue the activity. This decision depends on the information about the threat that the lead staff member has at the time. Otherwise:
3. If you are located in an area with a lockable door, gather all staff, visitors and students in the vicinity into the room and lock the door.
4. If you are not in a location with a lockable door, move staff, visitors and students to an area where they can be separated from other parts of the facility by a locked door.
5. Verify that all exterior doors have been secured as soon as it is safe for you to do so.
6. Call emergency services and advise them that you have initiated a lockdown at the facility and the reason for the lockdown. Request that law enforcement officers be dispatched if appropriate to the situation.
7. Notify the **principal and district administrator** and report your situation and request that they notify the Crisis Response Team of the situation.
8. Continue with normal activities to the extent the situation allows.
9. If staff, visitors or students have a need to move about in the building, make a decision whether or not it is safe to do so. Students who are allowed to move about the building should be escorted by an adult.
10. Be prepared to rapidly implement an emergency evacuation or **Lockdown** if directed to do so.
11. Brief staff, visitors and students as quickly as it is safe to do so. You may do so in several ways depending on your situation. Staff may be notified in person, via intercom, by phone, or by e-mail. You may need to remain in this lockdown^[EH15] condition for an extended time period. If so, you may wish to modify the lockdown^[EH16] conditions as appropriate.
12. Once the situation is resolved, implement the Resume Activities protocol. The lead staff member may wish to inform other staff, visitors, and students of the reason the lockdown was issued. This can be done by public address system or other means.

Section 8- Resume Activities

(Resumption of Normal Activities/Reverse Evacuation)

Definition

This protocol is used to return students and staff to the building after an evacuation or to resume normal activities following a lockdown or shelter in place once it is determined that potential danger has passed. A **Resume Activities** can be combined with a **Lockdown** if the lead administrator or his or her designee determines that there is danger to students who have been evacuated and that evacuees should be returned to the building and locked down.

Alert Signal

For a resumption of normal activities: An announcement by bullhorn, runners or via the public address system of “All teachers and staff implement the **Resumption of Normal Activities** protocol now. Please resume normal activities at this time.”

8.2 Teacher & Staff Response

If a reverse evacuation and lockdown is indicated: Teachers and staff shall return evacuees to their classrooms/assigned areas (or nearest assigned lockdown area) in an orderly but prompt fashion while remaining alert to possible threats. If a threat is identified while en route, appropriate adjustment should be made. Once they reach the assigned area, staff will implement the **Lockdown** Procedures.

1. Once evacuees have returned to their assigned area(s), take attendance to verify that all students are accounted for by name not a simple count.
2. Provide a list of missing students and other concerns to the lead administrator or his or her designee.

If a Resumption of normal activities has been indicated: Teachers and staff shall return evacuees to their assigned areas in an orderly but prompt fashion. Upon reaching their assigned area, normal activities should be resumed.

If a threat is identified while en route, appropriate adjustment should be made. Once evacuees reach the assigned area, staff will implement the **Lockdown** Procedures.

If a Resumption of normal activities has been indicated: Teachers and staff shall return evacuees to their assigned areas in an orderly but prompt fashion. Upon reaching the assigned area, the function should be resumed.

Section 9- Incident Command System Protocol

Definition

Response structure will be established using Incident Command System (ICS) principles with an identified incident commander, supported by a staff designated for operations, planning, logistics, and finance/administration respectively. A support staff group consisting of public affairs, safety and liaison elements will also be established. Generally, most of the event activities will be a part of the Operations Section supporting another agency's response to an incident; however, for health emergencies the incident commander and primary operations staff may be from the school's nursing office and local public health officials.

The Incident Commander is ultimately in charge of the event operations and activities associated with the event. All school staff and CRT members shall operate within the framework of the incident command system during crisis situations.

Incident Commander

1. Appoints Command Staff
 - Information Officer
 - Liaison
 - Safety Officer
 - Appoints General Staff
 - Operations Chief
 - Planning Chief
 - Logistics Chief
 - Finance/Administration Chief
2. Conducts incident briefings for Command Staff and General Staff
3. Monitors activities and events.
4. Scales back personnel if necessary.

There are three positions under the Incident Commander. These are called the **Command Staff** and consist of the following positions:

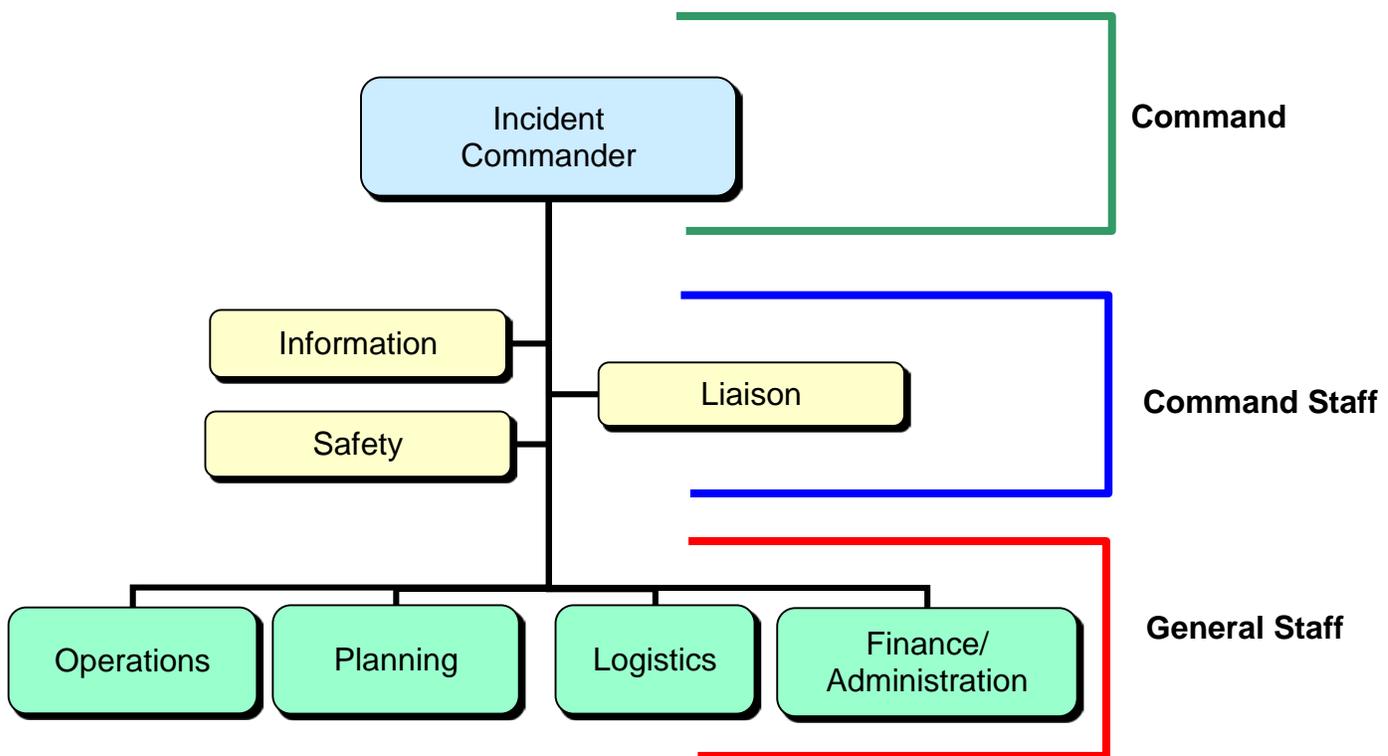

1. **Information Officer:** Point of contact for the media and other people or organizations seeking information.
2. **Safety Officer:** Monitors safety conditions and develops measures for assuring the safety of all personnel.
3. **Liaison Officer:** Point of contact for other agency representative involved in the incident or event, aids in coordinating their involvement.

Depending on the size of the event, all or some of the above positions may be activated. **However, any task not assigned is the responsibility of the Incident Commander.**

There are five functional areas that may be implemented as needed to respond to an incident. They are:

1. **COMMAND:** sets objectives and priorities, has overall responsibility at the incident or event.
2. **OPERATIONS:** Conducts tactical actions to carry out the plan and develops the tactical objectives, organization and directs all resources.
3. **PLANNING:** Develops the Action Plan to accomplish the objectives, collects and evaluates information, maintains resource status and documents the incident.
4. **LOGISTICS:** Provides support to meet incident needs, provides resources and all other services needed to support the incident.
5. **FINANCE and ADMINISTRATION:** Monitors costs related to the incident and provides accounting, procurement, time recording and cost analysis.
