

Geometry	Standards	Assessment
Circles	Derive the equation of a circle of given center and radius using the pythagorean theorem.	Video questions, email questions, googleclassroom surveys, textbook assignments, multiple choice/short answer tests and quizzes
	Identify and describe relationships among inscribed angles, radii, and chords	
Circumference, area, volume	Use volume formulas for cylinders, pyramids, cones, and spheres to solve problems.	Video questions, email questions, googleclassroom surveys, textbook assignments, multiple choice/short answer tests and quizzes
	Identify the shapes of two-dimensional cross-sections of three dimensional objects .
