MEDIA RELEASE

Throughout the school year, photos and videos may be taken of students, student work, and school activities. These photos and recordings may appear in various District materials including school and district websites, social media etc. Student names are usually not used in association with media, but when they are, only first names will be used except in situations where full names are standard. Most parents/guardians support and encourage this celebration of achievement, so by default, all parents/guardians who register their students are giving permission for this use.

Parents/guardians who wish to prohibit their student's image or images of the student's work from appearing in any of the above venues must opt-out below:

- DO NOT** Allow my student's image, work, accomplishments, etc. to be used on **school and district websites, social media** etc. I understand that this does not provide a basis for opting out of the regularly scheduled school events, including but not limited to vision, hearing and other screenings. I understand that my child's pupil record information may continue to be provided to individuals contracted to provide services to the District.
