North end of Fitness Center

Update

Fitness center panels were installed, the North end of the Fitness Center was cut down, and the railings began to be installed. Polished concrete flooring in the atrium and fitness center finished up and started in the lower level corridor and stairs. Doors were also installed in the lower level. Painting, electrical and mechanical rough ins continued to make progress. Installation of brick on column wraps finished up at the main entrance and Fitness Center Atrium. Concrete slab at end of the stairs by the main entrance was poured. Carpet was installed in the administration addition. The Middle School collaboration locker bases were installed. High School Collaboration ceiling grid was installed and the framing for the fishbowl was installed. The concrete ramp for the band room and stage was poured. Drywall was installed in the tech ed bathrooms and Activity Room. At the Elementary School, door frames were installed, block was filled in around the frames, framing for walls was completed, and plumbing continues.

About Hoffman
