Introduction

Academic and Career Planning, or ACP, is a student-driven, adult-supported process in which students create and cultivate their own unique and information-based visions for post-secondary success, obtained through self-exploration, career exploration, and the development of career management and planning skills.

What is ACP?

An **ongoing process** to actively engage students to:

- * Develop an understanding of his or her self
- * Create a vision of his or her future

- * Develop individual goals
- * Prepare a personal plan for achieving the vision and goals

A **product** that documents and reflects students’:

- * coursework, learning and assessment results
- * post-secondary plans aligned to career goals & financial reality
- * record of college and career readiness skills.

Why ACP?

ACP is intended to equip students and their families with the tools necessary to make more informed choices about postsecondary education and training as it leads to careers. It is part of DPI's overall vision for every student to graduate high school college and career ready. That means students must be competent both socially and emotionally. We want our students to be strong critical thinkers, collaborate and solve real-world problems, and persevere when things aren't quite going their way. When put together, it's about making them productive adults with satisfying careers.

Waupaca County Workplace Profile

The School District of Manawa is located in Waupaca County. While unemployment in Waupaca County has decreased, the workforce continues to have difficulty with employing quality, skilled workers. The complete 2017 Waupaca County Workplace Profile can be found here: http://worknet.wisconsin.gov/worknet_info/downloads/CP/waupaca_profile.pdf

School District of Manawa Information

The School District of Manawa consists of approximately 117 square miles of Waupaca County. The School District of Manawa is centrally located in Waupaca County and is used as a meeting place for the county due to its central location. The District is comprised of the City of Manawa, and the Township of Little Wolf, portions of the Townships of Union, St. Lawrence, Bear Creek, Lebanon, Royalton, Mukwa, Helvetia and the Village of Ogdensburg.

Roles Throughout the ACP Process:

ACP and Career Cruising:

The School District of Manawa will be utilizing Career Cruising in grades 6-12 to help students gain awareness of self, explore postsecondary and career options, document their academic and career plans, and review and revise their plans, as needed. Students are able to sign into Career Cruising through their launchpad once they sign into their Google accounts. All students own their own Career Cruising account beginning in grade six through grade twelve and beyond. Career Cruising allows students to travel through the four stages of academic and career planning while documenting and saving important aspects of their journey.

Student's Role:

Student's own and control the direction of their ACP process. Students are ultimately responsible for completing the portfolio requirements within their ACP, and following through with the goals and directions they establish within their plan, all with the support from parents, educators, and mentors along the way.

Educator's Role:

Educators will help bring a student's ACP to life through expanding and opening the doors of the classroom to the community and exposing students to careers and opportunities that enhance student learning across all content areas. Educators also play an advisory role in collaborating with students on their ACP progress annually.

Parent's Role:

Parents play an important and ongoing role in supporting students throughout his/her ACP journey. Parents have the opportunity to support their child in diving deeper into each of the four stages of ACP (Know-Explore-Plan-Go). Parents can participate in the ACP process through ongoing conversations with their children regarding their Career Cruising portfolio activities and ACP progress, and participating in their child's ACP conference in grades 8, 9, and 11.

Business/Community Role:

Business and community partners play an important role in collaborating with each other, with schools, and with students to ensure that all students have access to opportunities K-12 within the community, which support and enhance students ACPs. Businesses also plays a role in building awareness of the opportunities available within their organizations and supporting and growing the pathways that will help students gain the employability skills necessary to be successful in the workforce.

KNOW

This stage of Academic and Career Planning is about students developing an awareness of self. Through collaborative conversations with parents, educators, and the community, students will have multiple opportunities to develop an understanding of their personal interests, skills, values, and strengths.

Self Awareness (KNOW)

Students will engage in:

- Periodic self-assessment of interests and strengths
- Reflection and goal-setting
- Financial knowledge and understanding of resources
- Academic courses and skill preparation
- Behavioral and employability skill preparation

Students will take the Learning Styles Inventory through Career Cruising in sixth grade in order to explore and understand their personal strengths, learning styles, and interests. Students will complete the Matchmaker Assessment through Career Cruising in seventh grade and again in subsequent years. Their personalized results will help them better understand how their interests align to various career pathways. This assessment also provides students with the information needed to do in-depth exploration and research on career clusters/careers of interest.

EXPLORE

This stage is about students discovering and learning about the many academic and career opportunities available based on a foundational awareness and understanding of interests, skills, values, and strengths. This exploration stage will help students narrow down the options to further explore pathways that fit them best, so that they may begin planning a course of action.

Career Exploration (EXPLORE)

- Middle school career exploration activities and opportunities
- High school career exploration activities and opportunities
- World of work and labor market needs
- Understanding and comparing different postsecondary education and training

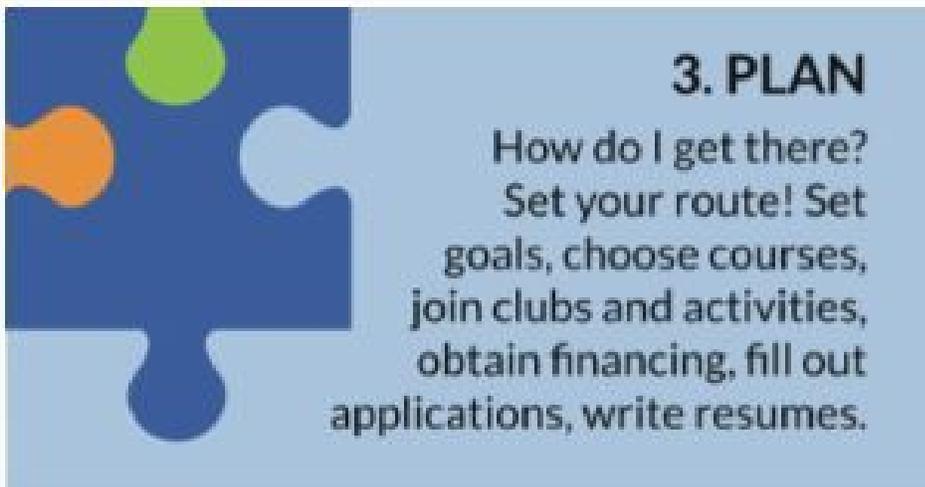

Students will complete the Matchmaker Assessment through Career Cruising each year. They will use their results to learn about careers that match their interests, skills, values, and strengths.

All students will have the opportunity to participate in a career-based event in middle and high school. It is important for students to have opportunities to explore careers in various pathways. Students also have opportunities to choose pathways within the District that allow them to gain relevant work-experience.

Our Workforce and Labor Market

It is important to have an understanding of the jobs available within our state and community in order to develop a realistic postsecondary plan. However, the labor market is constantly changing and it can be difficult to get an up-to-date snapshot of current and future employment projections. Through Career Cruising, all students have access to labor market information from the Bureau of Labor Statistics and other local data sources, as well as projections from across the 16 career clusters that will help inform their ACP journey.

PLAN

The planning stage is all about connecting the dots from student's short and long-term goals to what they need to know and do in order to successfully navigate after high school. The plan will help students take the appropriate courses, extracurriculars, and experiences that will enhance each student's plan. Throughout this stage, students will utilize Career Cruising as well as other school-designated resources/tools to help them develop and document their academic and career plans.

Career Planning (PLAN)

- Planning skills
- The middle school plan
- The high school plan

All students in grades 8, 9 and 11, along with their parents (strongly encouraged to participate) will complete an Academic and Career Planning conference. These conferences are designed to help students and parents make connections between the student's plan and their educational and career goals.

Students take a Personal Financial Literacy related course in twelfth grade, where they will explore how their financial values and goals translate into their plans.

Students in grades 6-12 will create short and long-term goals annually related to their ACP. These goals will be documented within student's Career Cruising accounts.

GO

Remember, there is no wrong pathway to success, and through ACP we will ensure that all students travel the road to adulthood equipped with the knowledge, skills and dispositions to be successful in tomorrow's workforce.

Career Management (GO)

- Executing the plan

- Updating the plan with new information and artifacts
- Conferencing and mentoring
- Transitioning ACP components

Implementation Plan

Academic and Career Planning will continue during the 2018-19 academic year. Since the seniors are getting ready to graduate, they will have the full amount of components to complete before their graduation. The other classes continue to update their requirements each year as follows:

Graduation Year	Portfolio Requirements
<i>Class of 2019 (Seniors)</i>	<i>About me</i> components All <i>Career Ready</i> components 1 <i>Career Exploration</i> artifact & reflection Mock Interview Portfolio Review Reflection Paper
<i>Class of 2020 (Juniors)</i>	<i>About me</i> components All <i>Career Cruising</i> components 1 <i>Career Exploration</i> artifact Evidence of 1 <i>Career Ready</i> component Portfolio review

New Students

We understand that the student portfolio is an ongoing process that occurs over the course of a student's four years in high school. As such, students new to the district will meet the requirements noted, dependent on the year they enter our district.

Reflection Paper

Upon completion of the final portfolio presentation process, senior students will be required to write a reflection paper. The purpose of this paper is to reflect on both academic and co-curricular experiences throughout high school and make relevant connections to future endeavors. Additional guidance and direction about the reflection paper will be provided their senior year during their dedicated ACP conference time with the counselor.
